Concierge Therapy Contract

Concierge therapy is an exclusive service that is only offered to a limited number of individuals at a time; this allows me to work deeply with each person and provide better client care. This also allows each discerning individual to access next level care with numerous perks that traditional therapy does not afford.

Personalization:

Concierge therapy is the epitome of individualized, custom-fit services. Insurance won't dictate how many sessions you can have, and I won't use a "one size fits all" approach to address your needs; our partnership will always reflect what you need in that moment. Some sessions you may want to gain some insight into your life. Other times, you may need an outsider perspective to help you problem-solve. Or perhaps you're having an unusually bad day and need a caring person to lend a listening ear. Your sessions can be anything you need them to be

Convenience:

You will never waste precious time battling traffic or dealing with frustrating parking situations. We can meet in my office or we can do sessions via phone or video conference instead [using VSEE app]

Flexibility:

Use your monthly package's hours (\$500 for 8am-8pm coverage month Monday-Sunday or \$400 for 6 sessions monthly [e.g. 2 per week] of 60 minutes each to be used at your discretion and however you see fit, whenever you want). No outside entity will dictate how long or how frequent your sessions should be. Also, if you have a schedule that

changes frequently, see me on different days and times each week without any hassle.

More Quality Time

Typical therapy sessions are 45 to 50 minutes in length. With me, you will always get a full 60-minute hour. Additionally, because I purposefully limit how many individuals I see at a time, I'm able to spend time outside of session reflecting on your case and staying current with the field of psychology; this enables me to bring the highest quality work into our sessions together.

Direct Access

Always get a response from me directly! I will answer all calls and texts personally (within an hour). No need to deal with receptionists, answering services, or anyone who doesn't know you and your needs.

Privacy

Did you know that insurance companies require certain diagnoses in order to authorize treatment? Bypass getting a label that will follow you and avoid sharing your health information with a health insurance organization or other entity. This keeps our work especially private and confidential.

*I am selecting the \$500 [GOLD] [8am-8pm Monday-Sunday] concierge package and agree to pay the full amount at the beginning of each month via check, cash, or card. I understand that I may cancel the concierge package prior to the beginning of the next month and either agree to the \$400 package or other agreed upon meeting times with Dr. Brown or terminate my counseling altogether.
